

AYANDA MEDIA TECHNOLOGIES AWARDED BOTSWANA TV TENDER

Ayanda Media Technologies (AMT), a company within the Questek group, specialising in broadcast and media technologies, has been awarded a tender to upgrade the facilities at Botswana Television (BTV).

The installation will position BTV, Botswana's public broadcaster based in Gaborone, as one of the most technologically-advanced broadcasting facilities in Africa.

The contract includes the supply and installation of a complete broadcast production workflow system. AMT will supply their integrated Quantel Enterprise sQ new production system to service all of BTV's news and production needs. AMT will also supply the internationally developed Blue Order media management solution.
